ART COURIERS TO THEIR MAJESTIES THE KING & QUEEN

TUCK'S POST CARD

CARTE POSTALE.

POSTKARTE.

By Appointment.

The Cuckoo. This well-known visitor to the British Islands during the summer months, arrives in the South of England about the second week in April, remaining till August and sometimes later. Its food consists of insects and especially hairy caterpillars; the parasitic habits of this bird are well-known, the nests of the Hedge Sparrow, Wagtail, Meadow Pipit, Sedge Warbler, and Reed Warbler being generally selected in which to lay its eggs.

(FOR ADDRESS ONLY.)

Processed in Bavaria.
